Nyoman offers International Events Private and Group Health Sessions to provide a holistic alternative for those who seek energy medicine to aid their health. Nyoman's healing is inspired by the Balinese way of life, which encourages him to nurture a greater harmony with spirit, the environment and with one another. Similarly, his holistic approach is designed to tune in to the physical, emotional and spiritual levels, allowing an organic healing process to naturally unfold. He collaborate with his guests to activate, facilitate and nurture a new healing path, and this begins by honouring his highest potential.

Nyoman embraces holistic Balinese-inspired therapies administered by traditional Balinese healers using ancient wisdoms passed down from direct lineage. Following the Balinese principle of Sekala-Niskala, which holds that we all live equally in two worlds; the seen or conscious world Sekala, and the unseen or psychic world Niskala, Nyoman Patra, the Balinese healers engage the help of the higher divine source during each healing session.

Healing rituals include a combination of meditation, deep bodywork and prana energy performed by healers Nyoman whose gifted talents have been handed down through generations of Balinese families. Energy Healing introduces the power of mother nature.

Chakra Balancing sessions are for activating and balancing the body's seven energy centres, while in Prana Healing, healer Nyoman will scan and clear the aura of imbalances.

Massage therapies include Holistic Massage with Prana combination, Deep Healing Reflexology, Acupressure, Invigorating Bodywork and Muscle Release, all of which synchronise intuitive body and energy work to identify, balance and heal.
